Regional and Urban Economics and Development

GROUP PROJECT ASSIGNMENT · ACADEMIC YEAR 2025–26

SUBMISSION DEADLINE	FORMAT	PRESENTATION TIME
Last day of class	**PowerPoint (max. 20 slides)**	**20 minutes per group**

Assignmet Brief

Your group works for one of the Big Four consulting firms (**Deloitte, Ernst & Young, KPMG, or PwC**). You have been commissioned by a regional multilateral development bank—either the **Inter-American Development Bank (IDB)** or the **African Development Bank (AfDB)**—to support the design of **projects and programs to foster sustainable and inclusive growth** in subregions of **Africa** or **Latin America and the Caribbean**.

The client is concerned about the persistent economic underperformance in various subregions and seeks expert advice on how to address these challenges with practical, evidence-based, and context-sensitive policy recommendations.

Sub-Regions

The central question for each region is: ***Why has economic growth been so disappointing?*** Groups must propose a pragmatic plan for sustainable and inclusive long-term growth.

LATIN AMERICA & CARIBBEAN	AFRICA
▸ Group 1	▸ Group 2

Evaluation Criteria

Your presentation should reflect the standards of a professional consulting engagement. Groups will be evaluated on the following dimensions:

- **Clear diagnostic:** Identify the key structural and policy-related factors constraining growth in your assigned region.
- **Comparative insight:** Refer to successful experiences from other regions or countries where relevant.
- **Practical recommendations:** Propose concrete, actionable policy measures and program ideas.
- **Professional quality:** Treat this as a real client engagement, clarity, rigor, and visual communication matter.

Grading Rubric

Groups will be assessed across five equally weighted dimensions (10 total):

Criterion	Description	Points
Quality of Diagnosis	Accurate identification of structural and policy constraints, supported by data and economic reasoning.	2 pts
Use of Evidence	Effective use of empirical data, academic literature, and relevant international comparisons.	2 pts
Policy Recommendations	Concrete, feasible, context-sensitive recommendations with clear justification.	2 pts
Presentation Quality	Clarity of communication, slide design, logical flow, and professional delivery.	2 pts
Teamwork & Q&A	Demonstrated group coordination and ability to respond to questions from the professor and peers.	2 pts

Suggested Slide Structure

The following structure is recommended but not mandatory. You may adapt it to your region and analytical approach (maximum 20 slides):

Section	Content	Slides
Title slide	Group name, subregion, client bank, consulting firm	1
Executive summary	Key findings and top recommendations at a glance	1–2
Regional context	Key socioeconomic indicators and growth trends	2–3
Diagnostic	Root causes — structural, institutional, and policy-related	4–5
International benchmarks	Relevant success stories and lessons learned	2–3
Policy recommendations	Proposed programs with impact and implementation	4–5
Conclusion & next steps	Summary and priority actions for the client	1–2

Submission Guidelines

1. **PowerPoint file (max. 20 slides)** submitted by email on the last day of class.
2. **Presentation:** 20-minute presentation during the last class of the term. All group members are expected to speak.
3. **Q&A:** Be prepared to respond to questions from the professor and your peers immediately after the presentation.
