FOR ANYONE WHO EATS AT MCDONALD'S · GROUP 3 · IE IMBA DATA FLUENCY

How many sugar cubes are in your order?

A story told in sugar cubes. One cube is 4 grams.

→ PRESS RIGHT TO START

THE ONE SENTENCE TO REMEMBER · KNAFLIC'S "BIG IDEA"

Most of the sugar hides in the cup, and the cheapest fix is to pick the Zero.

That is the whole talk. The next slides show you why, one cube at a time.

→ PRESS RIGHT TO START

THE UNIT

One cube is 4 g. A day is 12 cubes.

Doctors say about 50 g of sugar a day. That is 12 cubes. We will draw that line on every chart.

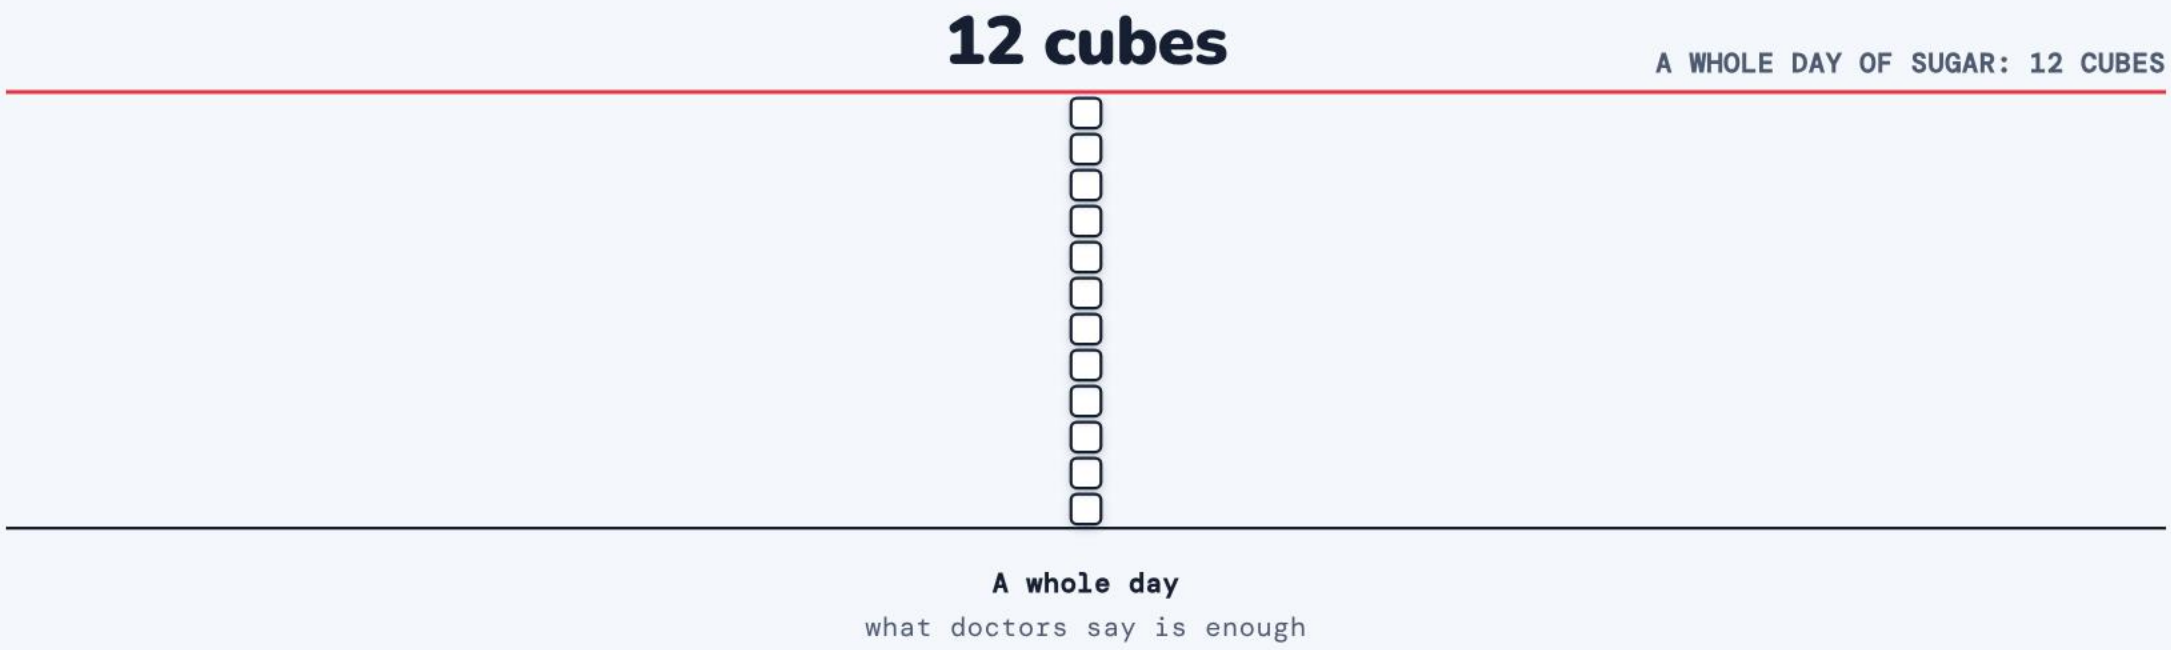

→ SEE IT IN THE DATA

One cube is 4 g. A day is 12 cubes.

HOW TO READ · 1 CUBE = 4 G OF SUGAR · THE RED LINE = 12 CUBES = A WHOLE DAY

12

CUBES IN A DAY

NOTES · N

THE FIX

Same drink, three choices.

Large Coke, Small Coke, Coke Zero. The Zero costs the same as the Coke.

→ SEE IT IN THE DATA

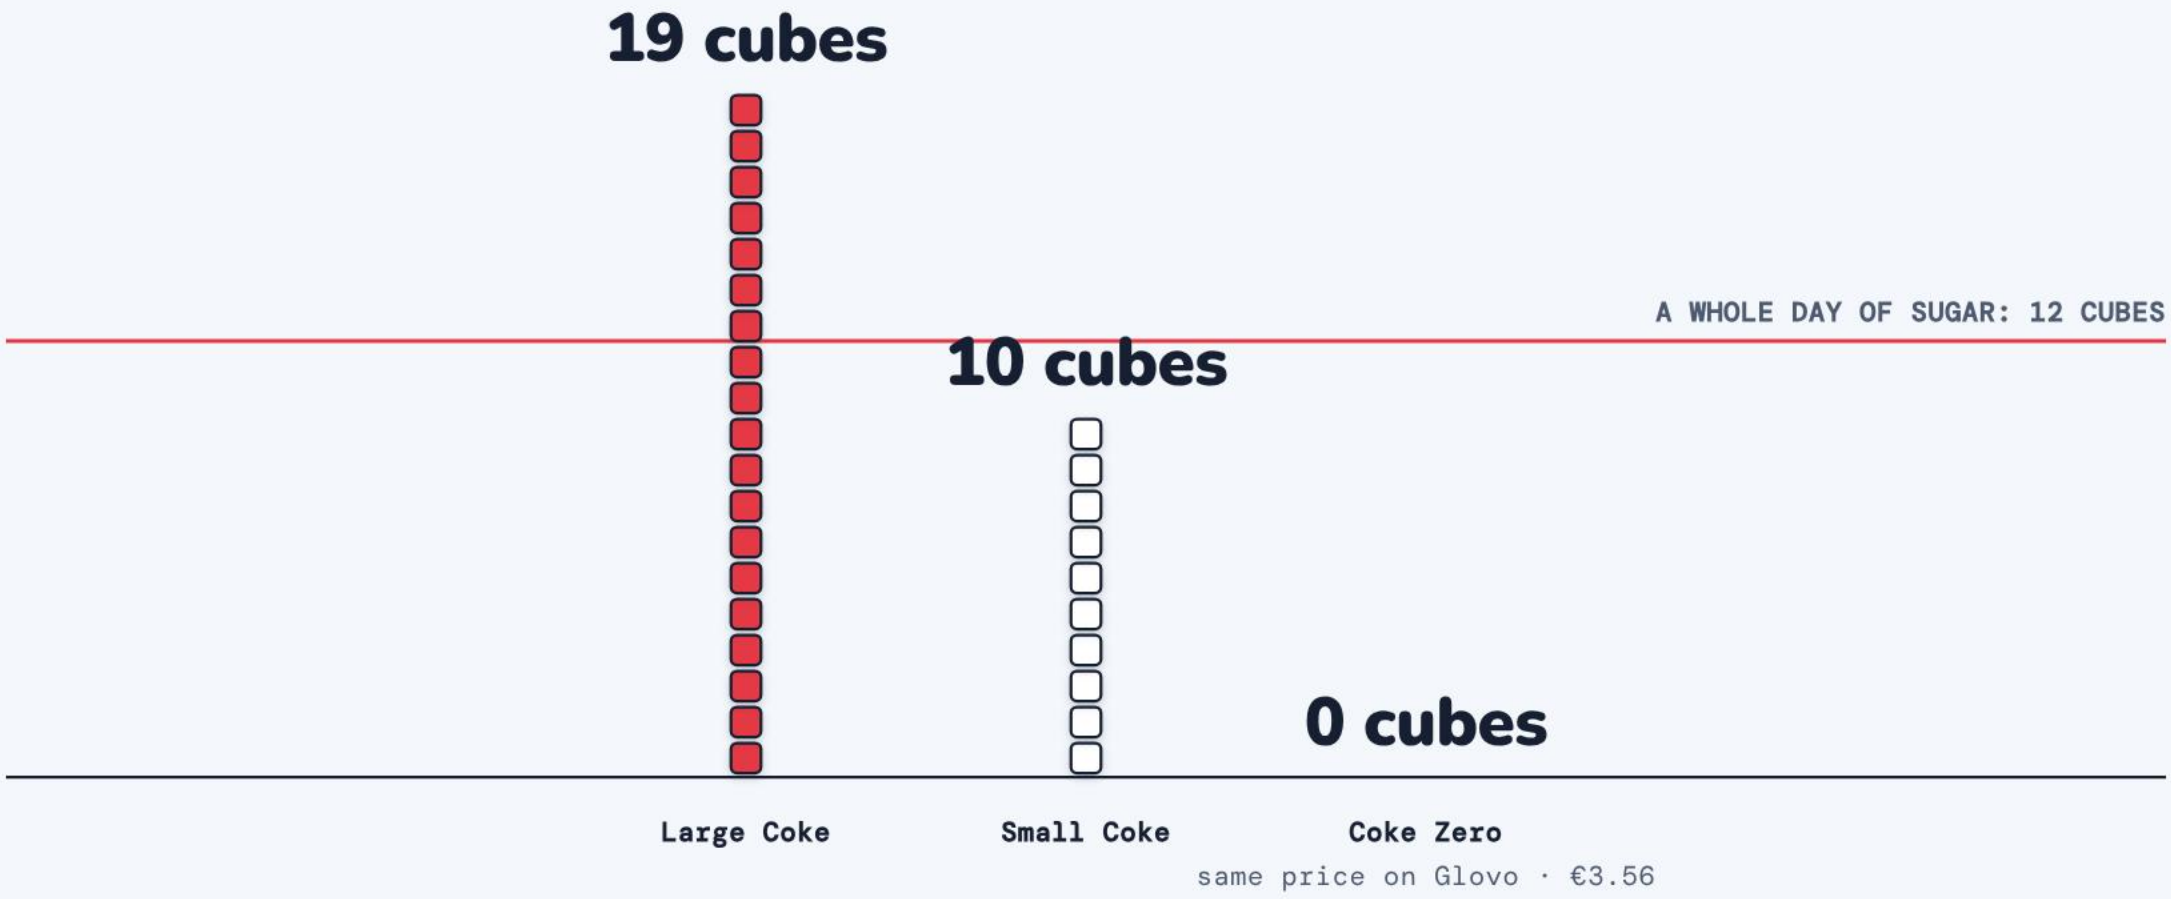

Same drink, three choices.

HOW TO READ · THREE STACKS · THE GREEN ONE IS FREE OF SUGAR AND COSTS THE SAME

0

CUBES IN A COKE ZERO

DATA: NUTRITION FACTS FOR MCDONALD'S MENU (KAGGLE, US, 260 ITEMS) · 1 CUBE = 4 G OF SUGAR · US MENU USED AS A STAND-IN FOR MADRID

NOTES · N

YOUR TURN

Your better basket.

Four small choices. None of them costs more.

→ SEE IT IN THE DATA

1 · THE DRINK

Zero, not Coke

−11 cubes

of sugar gone. Same price. Same cup.

2 · THE SIZE

Small, not Large

−5 cubes

on a typical drink. Cheaper too.

3 · THE CHICKEN

Grilled, not crispy

−80–160

calories, on every one of the 13 chicken dishes.

4 · THE EXTRA

Add an apple

+1 fruit

€1.30 on Glovo Madrid. Fruit is cheap, it just hides at the bottom of the list.

CHARACTERS

Anyone who orders at McDonald's

SETTING

260 things, measured in sugar cubes

CONFLICT

The sugar hides in the cup

RESOLUTION

Pick the Zero, pick the Small, add fruit
